

Please do not allow LPFM stations to take priority over current FM translator service. I enjoy stations such as K-LOVE and Spirit FM who depend upon current FM translator service to reach the community. These stations provide positive broadcasting for my family and the community. I do not have to worry about hearing foul/suggestive language, commercials, or music which create a negative influence on my family, friends and neighbors. Please find alternative ways to carry LPFM service without disrupting the current FM translator services that our community enjoys.
